Our Company

Established in 1986, Berajondo Earthmoving & Haulage is based in Bundaberg and operates throughout South East and Central Queensland.

We provide a large range of services to residential, industrial, agriculture, government and commercial sectors. Our services include but are not limited to land development and clearing, civil construction, dam construction, access road construction and haulage.

Our extensive fleet of equipment are maintained to the highest of standards and operated by competent operators. Berajondo takes pride in ensuring that every project has a quality finish and we ensure that all of our clients receive excellent customer service.

Berajondo Team

At Berajondo Earthmoving and Haulage we carefully select the right, highly trained and competent operators and mechanics to properly and efficiently manage our machinery and promote our business. We comprise of a small friendly team with a vast range of job roles ranging from office staff, workshop mechanics, field mechanics, labourers, truck drivers and machinery operators.

When considering your next earthmoving project please don't hesitate to contact us.
